

PRAYER SHEET

16 Days of Activism

16 Days of Activism is a global campaign to challenge violence against women and girls. This week, BMS World Mission is joining with our partner in Uganda, Justice Livelihoods Health, to speak out against gender-based violence in all its forms. BMS Gender Justice Co-ordinator, Annet Ttendo-Miller, has shared the following prayer requests to encourage you and your church to pray for justice this week.

1. Often victims of violence don't know how or whom to report domestic violence to. Pray that all girls, boys, women and men going through domestic violence will be able to report cases that arise.
2. Most victims of violence, especially women, are forced to stay in abusive relationships because they think they have no other way to survive without their abusive partners. Pray that victims of violence will be willing to report and be forthcoming in giving detailed statements.
3. Pray for victims to receive emotional, psychological and physical healing, to be delivered from the trauma of abuse and to be able to cope with life after violence.
4. Pray for people who are in a position to help to do so wholesomely and in a timely manner. These could be individuals, families, community leaders, faith-based organisations and the government.
5. Pray for the courage to speak out against gender-based violence, and for the work to change the systems that allow it to continue.
